**Sinomem Secures RMB146 million Wastewater Treatment/Recycling Projects in China**

---

The Board of Directors of Sinomem Technology wishes to announce that the Company has secured four new BOT wastewater treatment/recycling projects in China. The projects involve concessions to design, build, own and operate wastewater treatment plants with a total Phase I treatment capacity of 88,000ton/day.

The total investment in Phase I of the projects is estimated at RMB 146 million. The key details of the projects are summarised as follows:

Location of the projects	Concession (years)	Capacity (ton/day)		Investment (RMB million)	
		Phase I	Phase I+II	Phase I	Phase II
Yuhsan, Jiangxi	30	20,000	60,000	30	50
Yitong, Jilin	30	15,000	30,000	30	20
Meihekou, Jilin	30	35,000	70,000	51	89
Deqing, Zhejiang	30	18,000	36,000	35	30
<b>Total</b>		<b>88,000</b>	<b>196,000</b>	<b>146</b>	<b>189</b>

The investments will be funded through internal financial resources and are not expected to have any material impact on Group's earning per share for the fiscal year ending 31 December 2008, or the net tangible assets per share as at end 31 December 2008.

None of the Directors and Substantial Shareholders of the Company has any interest, direct or indirect, in the projects.

By Order of the Board

Dr Lan Weiguang  
Managing Director
